MEMORANDUM

TO: Code Enforcement

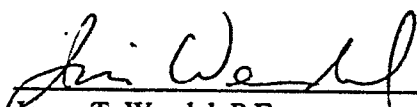

FROM: Jim Wendel, Development Review Coordinator

DATE: October 28, 1996

RE: Request for Certificate of Occupancy
26 Cottage Street(lot 3)

On October 28, 1996 I reviewed the site for compliance with the conditions of approval dated 9/29/94.

It is my opinion that all the conditions of the approval have been met and that a permanent certificate of occupancy could be issued assuming that Code Enforcement has no outstanding issues.

James T. Wendel, P.E.

c: Kandi Talbot, Planning Department
Katherine Staples, P.E. City Engineer

JN1350.1026cottage

MEMORANDUM

325

To: Dave Jordan, Code Enforcement Officer
From: Jim Seymour, Acting Development Review Coordinator
Date: November 10, 1995
Subject: Temporary Certificate of Occupancy for 26 Cottage Park

I have reviewed the single family residence at 26 Cottage Park and believe it would be acceptable to issue a temporary Certificate of Occupancy. A permanent Certificate of Occupancy should not be issued until the following conditions have been met:

1. All ponding or standing water located within the driveway or along the property line which abuts the residences of Brook Road shall be provided with a means to outlet the site without adversely impacting abutting lots. Any grading or installation of a drainage system must be reviewed and approved by the Development Review Coordinator prior to construction.
2. All roadside drainage shall be diverted away from the proposed driveway to remain within the right-of-way. This requires construction of a berm within the driveway entrance such that road runoff is prohibited from draining down the driveway. Road runoff away from the driveway shall be diverted away from the front yard area and graded to sheet flow along the property line and gully area between Lots 2 and 3. This drainage must then be addressed as noted in the previous condition.
3. Final driveway construction, to include but not limited to stone wall construction, grading, paving and installing drainage infrastructure shall be completed and approved by the Development Review Coordinator. It is imperative that all driveway drainage and grades be completed such that no surface runoff will be capable of entering or overflowing the garage floor elevation. Positive drainage away from the garage door opening shall be provided.
4. All disturbed lawn areas shall be repaired by May 15, 1996. All areas disturbed shall be winter hay mulched immediately following construction activity. Lawn areas shall be limed, seeded and mulched by the above date.

It is the responsibility of the applicant to address these conditions within 30 days, or provide in writing a report of the progress and schedule of work remaining. All work or submitted reports must be reviewed and approved by the Development Review Coordinator.

Dave,

Winfield Brown of 26 Cottage Park will be wanting a certificate of occupancy for his home first thing Monday morning. He is aware of Ric Weinschenk's commitment to amend his surface damage problems. If you need to reach me you can call me at Public Works, I have a meeting @ 7 AM, Monday discussing Cottage Park. Mr. Brown will also have a copy of my memo to you.
