April 4, 1948

Mr. William S. Smith
552 Allen Avenue
Portland, Maine

Subject: Building permit for construction of one
story frame poultry house

Dear Sir:

The above building permit is issued under the Zoning Law on the basis that the keeping of poultry in the house and on the run is a use commonly incident or accessory to a farm use. Under the present interpretation of the Zoning Ordinance by the Board of Appeals as to a farm use, you have such a farm use on your property, established by your statement on the sketch accompanying the application for the permit that there is more than three acres in your lot and that more than half of the lot is habitually placed under cultivation.

Nevertheless, under the Zoning Ordinance, this use of keeping poultry would doubtless become contrary to the Zoning Ordinance if any features in connection with it should become obnoxious or detrimental to the neighborhood by reason of the emission of odor, noise or the like.

Will you pay particular attention to the fact that this permit covers only what you have asked for and nothing different therefrom. For instance, the figures as to height of the building, size, location on the lot etc. are to be observed as on the application which you have signed. If you desire to change any of them, you should not do so until you have filed an application for amendment at this office and received the amendment approved.

This permit is also given under the condition that you demolish the present structure, formerly or at present used as a poultry house, and located or erected there without a building permit.

I believe you already have a permit to demolish the green house and a portion of the former poultry house converted to a camp on the rear of the lot. Also, I understand that the main part of the camp is in such condition that you will probably get another permit and demolish it soon.

Very truly yours,

Inspector of Buildings

Approved: 9/13/37

File: Rpt. 87C-I

August 28, 1937

Mr. C. N. Weedham,
469 Allen Avenue,
Portland, Maine

Dear Sir:

Enclosed is the building permit covering construction of a combined dwelling house and garage for Gustave Neuts at 550-564 Allen Avenue.

The two inch brick wall indicated on the application as protection between the house and garage will only be permissible if it is in the nature of a veneer fastened to a wooden stud partition sheathed with wood on the side to which the veneer is to be applied, in this case the garage side, if the bricks are laid in mortar and if the wooden stud partitions and the brick veneer are to be supported upon the same masonry foundation.

A ruling is just being issued today allowing for this protection three-eighths inch thick gypsum plaster board perforated with round holes three-quarters of an inch in diameter four inches on centers both ways plastered with one-half inch of gypsum plaster. This perforated board is a commercial product and you may use this kind of protection if desired.

Very truly yours,

Inspector of Buildings

McD/H

Chess & Profano Company
89 Adams Street
Portland, Maine

Gentlemen

Referring to your application in the name of Gustave Neuts for a building permit to cover moving and alterations of the building at 550 Allen Avenue, upon examination we find that this building is not in good shape at the present time.

Before a permit may be issued from this office to cover the work, it will be necessary for you or the owner to file here a framing plan showing the outline of the proposed building in its new location, and the spacing and size of all timbers in the frame, also whether or not the building is to be more than one story high when finished, how much pitch there is for the roof, what is to be done about extending the corner posts, etc. The present building has only 2x8 floor joists, and this framing plan must show for instance how these are to be supported, how long a span they are to be on, etc.

It will also be necessary to put up batter boards indicating the location of the building as it is proposed so that we may check the location plan against this staking out.

Please furnish this information and get the building staked out notifying this office as soon as it is done, without delay so that we may be in position to issue the permit for the work.

Very truly yours,

Inspector of Buildings.

RE: 552 Allen Avenue

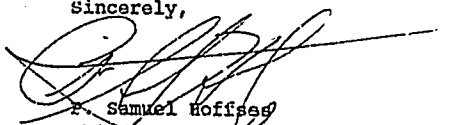

Dear Ms. Martin,

Your application to add a first floor bathroom has been reviewed and a permit is herewith issued subject to the requirements listed below. This permit does not excuse the applicant from meeting applicable state and Federal laws.

This permit is being issued with the understanding that this building remain a single family dwelling.

If you have any questions, please do not hesitate to contact this office.

Sincerely,

P. Samuel Hoffses
