THE BOCA NATIONAL BUILDING CODE/1990

49 Autum Gans.

622.2 Permits required: Approval shall be secured for all roof-mounted antennal structures more than 12 feet (3658 mm) in height above the roof. The application shall be accompanied by detailed drawings of the structure, and methods of anchorage. All connections to the roof structure shall be properly flashed to maintain water tightness. The design and materials of construction shall comply with the requirements of Section 621.3 for character, quality and minimum dimension.

622.3 Dish antennas: An antenna consisting of a radiation element which transmits or receives radiation signals generated as electrical, light or sound energy, and supported by a structure which may or may not provide a reflective component to the radiating dish, usually in a circular shape with a parabolic curve design constructed of a solid or open mesh surface, shall be known as a dish antenna.

622.3.1 Permits: The approval of the code official shall be secured for all dish antennal structures more than 2 feet (610 mm) in diameter erected on the roof of attached to any building or structure. A permit is not required for dish antennas nor more than 2 feet (610 mm) in diameter erected and maintained on the roof of any building.

622.3.2 Structural provisions: Dish antennas larger than 2 feet (610 mm) in diameter shall be subject to the structural provisions of Sections 621.4, 1111.0 and 1112.0. The snow load provisions of Section 1111.0 shall not apply where the antenna has a heater to melt falling snow.

#### SECTION 623.0 SWIMMING POOLS

623.1 General: Pools used for swimming or bathing shall conform to the requirements of this section provided that these regulations shall not be applicable to any such pool less than 24 inches (610 mm) deep or having a surface area less than 230 square fee! (23.25 m²), except when such pools are permanently equipped with a water-recirculating system or involve structural materials. For the purposes of accede, pools are classified as private swimming pools or public swimming pools, as defined in Section 623.2. Materials and constructions used in swimming pools shall comply with the applicable requirements of this code.

523.2 Classification of pools: Any constructed pool which is used or intended to be used as a swimming pool in connection with a building of Use Group R-3 and is available only to the family of the householder and private guests, shall be classified as a private swimming pool. Any swimming pool other than a private swimming pool shall be classified as a public swimming pool.

623.3 Plans and permits: A swimming pool or appurtenances thereto shall not be constructed, installed, er larged or altered until plans have been submitted and a permit has been obtained from the code official. The approval of all city, county and state authorities having jurisdiction over swimming pools shall be obtained before applying to the code official for a permit. Certified copies of these approvals shall be filed as part of the supporting data for the permit application.

623.3.1 Plans: Plans shall accurately show dimensions and construction of the pool and appurtenances and properly established distances to lot lines, buildings, walks and fences, as well as details of the water, supply system, drainage
