R. A. Profenno
58 Christy Road

It has come to the attention of this department that a utility shed is under construction at this address.

We have no record of a building permit having been applied for to do this work.

It is necessary that someone apply for a building permit within 10 days, not later than May 31, 1978.

They should have with them a plot plan showing the location of the building. The building cannot be placed any closer than 3' from any property line. A list of the materials used in its construction and a plan drawing showing its height, size, etc.

Very truly yours,

Hubert Irving
Building Inspector

Lots 7, 10, 18 Christy Road

April 28, 1976

Chavland & Gendreau
E. F. D.
Kennebunk, ME

Gentlemen:

Permits for construction of homes on the above lots are issued herewith, subject to the following Building Code requirements.

Please bear in mind that all foundation walls are to be 10" thick, instead of the 8" indicated on the plans filed with the application.

All of the sills on the outside porches or decks are required to be at least 4" in thickness, set with the 6" or 8" dimension upright. There are to be all one piece in cross section, not built up.

On Lot 18, where there is to be a two car garage in the basement, the wood stud partition forming one side of the garage, the shoe upon which this partition rests, shall be of a durable or treated wood (or be set at least 6" above the cellar floor in order to prevent dampness therefrom running out the shoe). A 3/4" solid wood core door is required in the opening between the garage and the balance of the basement, and this door is to be provided with a self-closing device, and a 6" threshold.

Very truly yours,

Earle S. Smith
Plan Examiner
