Mr. Martin S. Bartley,
59 Alpine Road

Dear Mr. Bartley:

Building permit for construction of a single family dwelling 25 feet by 33 feet at the above named location is issued herewith based on plans filed with application for permit, but subject to the following conditions:

1. Front yard setback of 25 feet will need to be measured from the wall of the overhanging gable instead of the foundation.
2. Because of the flatness of the pitch of roof of dormer, a beam support will be needed at the ridge. Permit is issued on the condition that, before notice is given for erect of forms prior to pouring of concrete for foundation walls, satisfactory information as to the size of such a beam and method of its support is to be furnished.
