A.P. - 1st 16 Alpine Road

May 24, 1956

Martin Bartley
53 Alpine Road

Dear Mr. Bartley:

Permit to construct 1½ story frame dwelling 24'-8" x 33' with 1-car garage 14'x22' and 8'x12' open breezeway is being issued subject to plans received with application and in compliance with Building Code regulations as follows:

1. The rear wall of this dwelling will need corner posts that extend in one piece with 18 inch lap splices allowed from the first floor shoe (sole plate) where a box sill is allowed to the double plate which support the roof rafters at the eave level. The second floor studs in the exterior walls to extend down to the double 2x4 inch plate upon which the second floor joists rest with the second floor joists being spiked to these studs.
2. If at any time in the future it is decided to close-in the breezeway, a permit will be needed from this department. Closing-in would require that the partition between the breezeway and garage will need to be covered on both sides with the garage side being of fire resistive material. The door opening in this partition will need to be equipped with a self-closing solid core plywood door having a uniform thickness of one and three-quarters inches or a door affording equal or better protection.

Very truly yours,

A. Allan Scull
Inspector
