January 21, 1938

The Boyd Corp.
178 Middle Street
Portland, Maine

Gentlemen:

Both the fill pipe and the vent pipe intended to serve the oil storage tank in connection with the oil burner installation which you made early in the fall for Clifford D. White at 696 Allen Avenue terminate inside the building instead of being extended outside as required by Building Code regulations to which you agreed when the permit was applied for.

Your Mr. Carnes when approached about this matter said that the owner was unwilling to have the fill pipe and the vent pipe extend outside the building. We have not had opportunity to confer with the owner about it, but it appears necessary to extend the fill pipe and the vent pipe outside of the building whether the owner wants to do it or not. We are giving him a copy of this letter and I am sure that if he understands the reasons for extending the fill pipe and the vent pipe outside he will have no objection whatever to following standard practice all over the country in this regard.

We shall have to require that this work be altered to comply with the Building Code on or before February 1, 1938.

Very truly yours,

WMcD/H

Inspector of buildings

CC: Clifford D. White
696 Allen Avenue

Dear Mr. White:

The extension of these two pipes out of doors is absolutely essential and this arrangement is recommended by the best safety engineers that exist.

Warren McDonald

 5/24/32 Building underpinning. I saw Mr. Clifford White here today. They are not likely to start framing until Monday. Mr. Goddard spoke of having a 16'-0" span for his 1st floor joists, told him this was too much. Mr. White said today they would have a 12' and a 12' span. O.B.
 5/31/32 Underpinning completed, framing not started. O.B.
 6/2/32 Mr. Goddard working here, starting to lay sills 4x8 flat on 8'-0" apart to be made 6x8 on edge. Took up matter of bearing partitions and outside wall studs bearing on sills and girders direct. Sill 4x8 flat 8x4 = 21.3 feet. md. Dump oil on 1st floor. 4.5 x 8 x 55 = 1980
 Roof & ceiling same 2
 3960

3960 x 1.2 = 47520
 47520 = 31.6 Reg. Sect.
 1570
 A 4x6 on edge with what is there now is ample or a 4x8 on edge. Mr. Goddard said he would put in 6x8. O.B.
 6/7/32 Boarding 1st floor O.B.
 6/10/32 Corner posts up and first floor boarding on. One cellar window has a corner post bearing about in the center, the sill at this point has been cut out to receive a girder. Mr. White will decide whether he will close this window up or adopt some other means of strengthening this point. O.B.
 6/14/32 Mr. White will brick cellar window, under corner post, up. Framing 1st floor windows O.B.
 6/16/32 Outside walls up to gut, fireplace between 1st & 2nd floors. O.B.
 6/21/32 Framing up to plate. chimney up to 2nd floor level. O.B.

6/29/32 Framing up to plate, roof not started. O.B.
 7/5/32 Boarding Roof. O.B.
 7/19/32 Churning 12 courses above roof. Shingling outside O.B.
 7/26/32 Same. O.B.
 8/3/32 Same. O.B.
 8/11/32 Work on outside not yet completed. O.B.
 9/1/32 Second floor ceiling and outside wall partly closed in.
 Finestop around soil stacks at all floors.
 Finestop around chimney and fill at all floors.
 All finestops knocked out by heat risers to be replaced.
 All woodwork to clear chimney by 1". Gave R.T. this work to be done and this office notified before being more closing in is done. O.B.
 12/30/32 Findon is hung and counterweighted. Opening for coal between garage and cellar has half closing hinged door and metal covered. O.B.

INSTRUCTIONS

- First - The applicant is to complete front of this form. The Tax Map Reference can be found on your Real Estate Tax Bill directly following owners name and address in the center of your Property Tax Bill. The lot name and address should be copied from your Water & Sewer Bill - well as the Portland Water District Account Number which is in the lower left corner of the Water and Sewer Bill.
- Second - Mail completed application form to:
 City of Portland
 Dept. of Public Works
 454 City Hall
 Portland, Maine 04101
 ATTN: MR WILLIAM GOODWIN
- Third - The Public Works Department will call the person indicated on front side to schedule pre-installation inspection. During this inspection the Public Works section of this form (below) will be completed. Following this inspection Public Works will make copies of the application form. If the application is approved 3 copies will be made, one will be mailed to the Portland Water District, one will be forwarded to the City Plumbing Inspector and one will be mailed back to the Applicant. If the application is denied, one copy will be made and mailed to the applicant showing reason for denial.
- Fourth - Upon receipt of a copy of the approved application, the applicant can purchase and install the sub-meter as approved. Following installation the applicant or his plumber must call the Chief Plumbing Inspector at 775-5451 Ext. 234 for an inspection of the completed installation. Following inspection by the Chief Plumbing Inspector, the Water District will be requested to set the sub-meter and arrange to have an automatic reading system (if applicable - See General Information right) instituted where by the volume shown by the submeter will be credited on the Sewer User Charges of the Bill.

GENERAL INFORMATION

Section 322.6C of the "Municipal Code of the City of Portland, Maine" reads as follows:

"Submetering of Water Value. Any person who feels that recorded water records are not a reliable index of his discharge volume may install an additional water meter of a type approved by the Director to measure the volume of water which can be shown not to enter the sewerage system. The person installing such a meter shall immediately notify the Director of such installation and shall be responsible to the Director for reporting meter readings not less often than every three months. Such person shall be credited with the volume charges for the volume shown by such meter, which meter shall be accessible for reading by the City or its agents at all reasonable times.

The City and the District have arranged to relieve the customer from the reporting responsibility required above if both meters can be read simultaneously by the District Meter Readers during their regularly scheduled visits to read the pre-existing service meter. This can be accomplished by locating the sub-meter directly adjacent to the pre-existing service meter or by equipping the sub-meter located elsewhere with a remote reading register located so both readings can be made at the same time.

Approved meters are: Neptune and Rockwell meters, conforming to the following specifications:

1. shall meet or exceed NWA accuracy test requirements and be accompanied by a certificate of test accuracy
2. the meters will have straight reading, cubic foot registers.
3. the meters will have the meter number stamped into the main case.
4. the meters shall be magnetic drive.
5. shall have either a rotating disc or oscillating piston.
6. shall have a bronze case.

Approved meters are available from the Water District, which sells them for the price the District buys them from the manufacturers. If you wish to purchase a sub-meter from the District you must bring your copy of an approved application with you at time of purchase.

TO BE COMPLETED BY PUBLIC WORKS

Pre-installation inspection by William B Goodwin
 on May 10, 1979

Automatic reading system requested YES NO

A Wells No 8 A Back Flow Preventer or equal shall be installed on the hose bibb of the outside sidewalk.

Application Approved Denied

Comments _____

TO BE COMPLETE BY THE PLUMBING INSPECTOR

An inspection of the completed installation of the submetering system approved on this application was conducted on 7/24/79 by Ernold R. Goodwin, Chief Plumbing Inspector of the City of Portland.

- The submetering system was installed as approved.
- No cross connections were found.

The installation is approved disapproved
