Building permit for construction of a two car garage 20 feet by 22 feet on lot with your dwelling at the above location is issued herewith. We note that the plan filed with application for permit indicates what appears to be vertical sheathing on outside of walls. Unless this material is to be applied on top of the usual rough boarding attached to 2x4 vertical studs spaced no more than 24 inches on centers, no work is to be started until approval has been secured from this office for the construction you plan to use.
