Gentlemen:

Upon inspection of the above job on Nov. 15, 1963, the following omissions were found which prevent us from issuing the certificate of occupancy—required by law to be in possession of the owner before the building may be lawfully occupied:

- Noic in flooring not closed off with incombustible material.

- 4. Tubing from tank to burner lies unprotected on floor.

It is important that correction of these conditions be made before Nov. 29, 1963 and that you notify this office of readiness for another inspection, so that, if all is found in order, the certificate of occupancy required by law may be issued.

If additional information relative to the above is desired, please phone Inspector Earle Smith at 774-8221, extension 236, any week day but Saturday between 8:00 and 8:30 A. N.
