AP - 50 Hawthorne St.

November 23, 1965

Mr. Herbert A. Moore,
50 Hawthorne Street

Dear Mr. Moore:

Permit to construct a one-car, one-story frame garage 14'x22' is being issued subject to Building Code restrictions as follows:

1. A permit cannot be issued in the future if it is desired to connect the garage to the dwelling by a breezeway or other rigid connections as the dwelling has a foundation below frost; whereas the garage will rest on a concrete slab subject to frost action.
2. - Ties of at least 2x4 inch stock will be required at every other rafter at the plate level and hung in the center by a board to the rafters near the ridge board.

Very truly yours,

A. Allan Soule
Inspector

AAS/h

Herbert A. Moore

Building permit for construction of a single family dwelling 26 feet by 29 feet at the above location is issued herewith based on plans filed with application for permit but subject to the following conditions:--

--the 4x6 sills of entrance platforms are to extend around the three outer edges of platforms and pipe columns supporting them are to have an outside diameter of not less than 3 inches.

--we note that structural insulating board is to be used for sheathing the walls of this building. The standards of the Building Code authorizing the use of such material specify that it shall be applied strictly in accordance with the directions of the manufacturer and the recommendations of the Insulation Board Institute, both as to the application of the board itself and as to the application and fastening of weather resistive covering in connection therewith. Permit is issued on the basis of compliance with these standards.

INSTRUCTIONS

- First - The applicant is to complete front of this form. The Tax Map Reference can be found on your Real Estate Tax Bill directly following owners name and address in the center of your Property Tax Bill. Billing name and address should be copied from your Water & Sewer Bill as well as the Portland Water District Account Number which is in the lower left corner of the Water and Sewer Bill.
- Second - Mail completed application form to:
 City of Portland
 Dept. of Public Works
 404 City Hall
 Portland, Maine 04101
 ATTN: MR. WILLIAM COGDWIN
- Third - The Public Works Department will call the person indicated on front side to schedule pre-installation inspection. During this inspection the Public Works section of this form (below) will be completed. Following this inspection Public Works will make copies of the application form. If the application is approved 3 copies will be made, one will be mailed to the Portland Water District, one will be forwarded to the City Plumbing Inspector and one will be mailed back to the Applicant. If the application is denied, one copy will be made and mailed to the applicant showing reason for denial.
- Fourth - Upon receipt of a copy of the approved application, the applicant can purchase and install the sub-meter as approved. Following installation the applicant or his plumber must call the Chief Plumbing Inspector at 775-5451 Ext. 804 for an inspection of the completed installation. Following inspection by the Chief Plumbing Inspector, the Water District will be requested to seal the sub-meter and arrange to have an automatic reading system (if applicable - See General Information) instituted where by the volume shown by the submeter will be credited on the Sewer User Charge of the Bill.

353

GENERAL INFORMATION

Section 322.6C of the "Municipal Code of the City of Portland, Maine" reads as follows:

"Sub-metering of Water Volume. Any person who feels that recorded water records are not a reliable index of his discharge volume may install an additional water meter of a type approved by the Director to measure the volume of water which can be shown not to enter the sewerage system. The person installing such a meter shall immediately notify the Director of such installation and shall be responsible to the Director for reporting meter readings not less often than every three months. Such person shall be credited with the volume charge for the volume shown by such meter, which meter shall be accessible for reading by the P.W. or its agents at all reasonable times."

The City and the District have arranged to relieve the customer from the reporting responsibility required above if both meters can be read simultaneously by the District Meter Readers during their regularly scheduled visits to read the pre-existing service meter. This can be accomplished by locating the sub-meter directly adjacent to the pre-existing service meter or by equipping the sub-meter located elsewhere with a remote reading register located so both readings can be made at the same time.

Approved meters are Neptune and Rockwell meters, conforming to the following specifications:

1. shall meet or exceed AWWA accuracy test requirements and be accompanied by a certificate of test accuracy.
2. the meters will have straight reading, cubic foot registers.
3. the meters will have the meter number stamped into the main case.
4. the meters shall be magnetic drive.
5. shall have either a rotating disc or oscillating piston.
6. shall have a bronze case.

Approved meters are available from the Water District, which sells them for the price the District buys them from the manufacturers. If you wish to purchase a sub-meter from the District you must bring your copy of an approved application with you at time of purchase.

TO BE COMPLETED BY PUBLIC WORKS

Pre-installation inspection by Guy Zazzara
 on 7/27/81

Automatic reading system requested YES NO

A WATTS 8A N.F. Back Flow Preventer or equal shall be installed on the hex bolts of the sill cocks
