October 8, 1964

Community Oil Co.,  
Front Street  
South Portland, Maine

Gentlemen:

In connection with the installation of a suspended warm air heater in service station at the above named location, definite information will need to be furnished this office before issuance of any permit that the existing underground fuel storage tank which it is proposed to use in connection with the installation, and which has been in the ground for nearly 20 years and out of use for several years, is in such condition as to be safe to use for this purpose.

It should also be noted that to comply with Building Code requirements the heating unit itself, and not only the oil burner will need to bear the Underwriters' Label. It will also need to be installed so that any flame will be at least eight feet above the floor.

Very truly yours,

Albert J. Sears  
Director of Building Inspection

Dear Mr. Goulatin:

An inspector from this department reports that there are four junk cars and a number of automobile parts piled beside the service station building at the above named location, of which you are reported to be the manager. This property is located in a D-2 Business Zone where such storage or use is not allowable under the Zoning Ordinance.

It is therefore necessary that you proceed without delay to have this unlawful condition corrected by removal of the junk vehicles and parts from the premises. Unless this is done before June 18, 1964, I shall find it necessary to report the violation to the Corporation Council and recommend the taking of whatever legal steps he may deem appropriate to secure compliance with Zoning Ordinance restrictions.

This condition is also in violation of recently enacted State Laws under which Court action against you may be taken.

Very truly yours,

Albert J. Soars  
Director of Building Inspection

PERMIT TO REMOVE LEAKING

1000 & INSTALL 2000

PRESENT TANKAGE

1-1000

1-000

Memorandum from Department of Building Inspection, Portland, Maine  
2 Veranda St.--Installation of gasoline storage tank for and by Community Oil  
Company--2/27/57

Before tank and piping is covered from view, installer is required to notify Fire Department Headquarters of readiness for inspection and to refrain from covering up until approved by the Fire Department.

This tank of 2000 gallons capacity is required to be of steel or wrought iron no less in thickness than No. 7 gauge; and before installation is required to be protected against corrosion, even though galvanized, by two coats of tar, asphaltum, or other suitable rust-resisting paint, and special protection wherein corrosive soil such as cinders or the like.

Pipe lines connected to underground tanks, other than tubing and except fill lines and test wells, must be provided with double swing joints arranged to permit the tank to settle without impairing the efficiency of the pipe connections.

Owner and installer will have to bear the responsibility for the structural capacity of the tank to support loads from above such as heavy motor trucks.

If tank will be so located as to be subjected to the action of tide water or "ground" water, adequate anchorage or weighting must be provided to prevent "floating" when tank is empty or nearly so.

45 Forest Ave.

Copies to Community Oil Co., Inc.  
204 Kennebec St.  
Brown's Service Center  
2 Veranda St.

Dear Mr. Jackson,

The sketch attached to your application for the outdoor telephone booth at the above location does not give full assurance of compliance with the Building Code and the Zoning Ordinance.

Under the Building Code, the small building is required to be at least three feet from the property line of the service station, which is approximately at right angles with Washington Ave. Your sketch shows a picket fence, which may or may not be on the line. It is important that you show the true property line between the service station and the next property, even though both lots may be owned by the same person, and indicate that the building will be at least three feet from this dividing property line.

Under the Zoning Ordinance, the small building is not permitted closer to the street line (inside edge of public sidewalk) of Washington Ave. and the front wall of the building used as a habitation on the next lot. Please indicate on your sketch the distance that the front wall (not the open porch) of the building on the next lot, is from the street line of Washington Ave., and that the small proposed building will set at least that far from the street line of Washington Ave.

Very truly yours,

Warren McDonald  
Inspector of Buildings

AP 4 Veranda St.—Proposed roof sign

United Neon Display  
74 Elm St.  
The Wigwag  
4 Veranda St.

Copy to Mr. Arnold Gomez  
4 Veranda St.

Gentlemen:

There is almost no information on the plan which you have filed of the above sign to show that the supports afforded by the building, the guys and the fastenings to the roof will meet the requirements of the Building Code to safely support the sign as required by Building Code standards.

It will be necessary for you to have some party accustomed to designing structures to provide a design plan showing all details, including the spacing and spans and size of the members of the roof of the building which are to carry the dead weight and the wind load of the sign, and attach to the plan his statement of design as called for by Section 104b3 of the Building Code.

Your designer should assume a wind load on either face of the sign of at least 20 pounds per square foot.

Very truly yours,

Warren McDonald  
Inspector of Buildings

WMC/D

BI FORM 52

WRITTEN CONSENT AND AGREEMENT RELATING TO A CERTAIN SIGN PROPOSED TO  
BE ERECTED PROJECTING OVER A PUBLIC SIDEWALK FROM THE PREMISES  
AT 4 VERANDA ST IN PORTLAND, MAINE

A GOMES, being the owner of the  
premises at 4 VERANDA ST in Portland, Maine hereby gives  
consent to the erection of a certain sign owned by WIG WAM  
projecting over the public sidewalk from said premises as described in  
application to the Inspector of Buildings of Portland, Maine for a permit  
to cover erection of said sign;

And in consideration of the issuance of said permit A  
GOMES, owner of said premises, in event said sign shall  
cease to serve the purpose for which it was erected or shall become dangerous  
and in event the owner of said sign shall fail to remove said sign or make  
it permanently safe in case the sign still serves the purpose for which it  
was erected, hereby agrees for himself or itself, for his heirs, its  
successors, and his or its assigns, to completely remove said sign within  
ten days of notice from said Inspector of Buildings that said sign is in  
such condition and of order from him to remove it.

In Witness whereof the owner of said premises has signed this consent  
and agreement this 18 day of OCT 1955
