Freeport, ME

cc: Blanche Mack
11 Fayette Street

Gentlemen:

A Building Permit is issued herewith to construct a 16 x 20 addition to the rear of the existing dwelling, at the above address, subject to the following Building Code requirements.

Please find enclosed Statement of Design to cover the use of the steel girder. Please have person responsible for the design of the girder sign the enclosed statement.

The 2 x 10's at 16 inches on centers will not figure out to support the loads involved on a 20 ft. span. Unless these floor timbers are supported about midway of the span, it will be necessary that you use larger roof members.

The foundation walls are to be at least 10 inches thick on all three sides of the addition.

Please notify this office before forms are poured and before wallboard is applied to the framing.

Very truly yours,

Earle S. Smith
Building Inspection Supervisor
