RE: 15 Cleveland St.

Mr. & Mrs. M. Withee
15 Cleveland Street
Portland, Maine

Dear Mr. & Mrs. Withee:

On my inspection Friday, I noted the carrying beam in the kitchen area showed to be fatigued and sagging under an over load - this I'm sure is due to it undersize approximately 4 x 6.

I strongly recommend it be replaced with a solid 4 x 10, or two - 2 x 10 spiked together and a 1/2" plywood filler in between would give the necessary support that I feel certain is needed.

Feel free to call at any time if I can be of any further service.

Yours truly,

Hugh Irving, Building Inspector
