Planning Dept.
City of Portland

Dear Rick:

This letter is to confirm our conversation regarding certain items with regard to the proposed Community Service Building on Allen and Harvard streets:

1. The electrical service will be placed underground.
2. The standpipe on the corner of Harvard and Allen will be moved by the city Water Dept. so as not to obstruct the Harvard street sidewalk.
3. All disturbed land areas will be loamed and seeded.
4. Timber guard will be placed around the parking lot. The probable material will be railroad ties.
5. The flood light on the east end of the building will be a mercury lamp. All entrances will have outside lighting. All exterior lighting will be non-glaring and deflected downward.
6. The corner of Harvard and Yale streets will be cleared of trees and shrubs to allow traffic from Yale street to have an unobstructed view of Harvard street and the entrance to our parking lot.
- ~~7. Due to limited finances at present, we formerly request that the requirement for curbing along the north side of Harvard street be waived. If this is not possible, then we request a one to two year delay in installation.~~
8. We would like to place a sign on the front, right of the building that is about 3' by 3'. It is professional in appearance and has the words, "Community Service of the Seventh-day Adventist Church."

Thank-you for your help and consideration.

Sincerely,

Kim Johnson, Pastor
White Memorial Seventh-day Adventist
Church.

CITY OF PORTLAND, MAINE
MEMORANDUM

TO: Rick Knowland, Senior Planner

DATE: 10/11/83

FROM: Anne R. Grimes, City Arborist ARG

SUBJECT: White Memorial Church - Allen Avenue /Landscape Plan 9/14/83

I have reviewed the above-mentioned landscape plan prepared by Maine Tree Service. I have accepted the plan contingent upon the following:

1. Preservation of existing trees

If the majority of trees on the Harvard Street side of the project shown as "existing" are preserved using methods outlined on page 3-5 of the "Maine Tree Service" report, no additional plantings will be required except those shown as foundation plantings around the building.

If the trees are not properly preserved such that a long term survival rate becomes unlikely as determined by the City Arborist and consultant, then Harvard Street will be planted with 8 - Tilia Cordata 'Greenspire' (2½-3").

2. Allen Avenue side/New plantings

The white pine planting is acceptable, however I recommended to Reverend Johnson that deciduous street trees would also be acceptable. (6 - Tilia cordata 'Greenspire' 2½-3")

3. Buffer strip

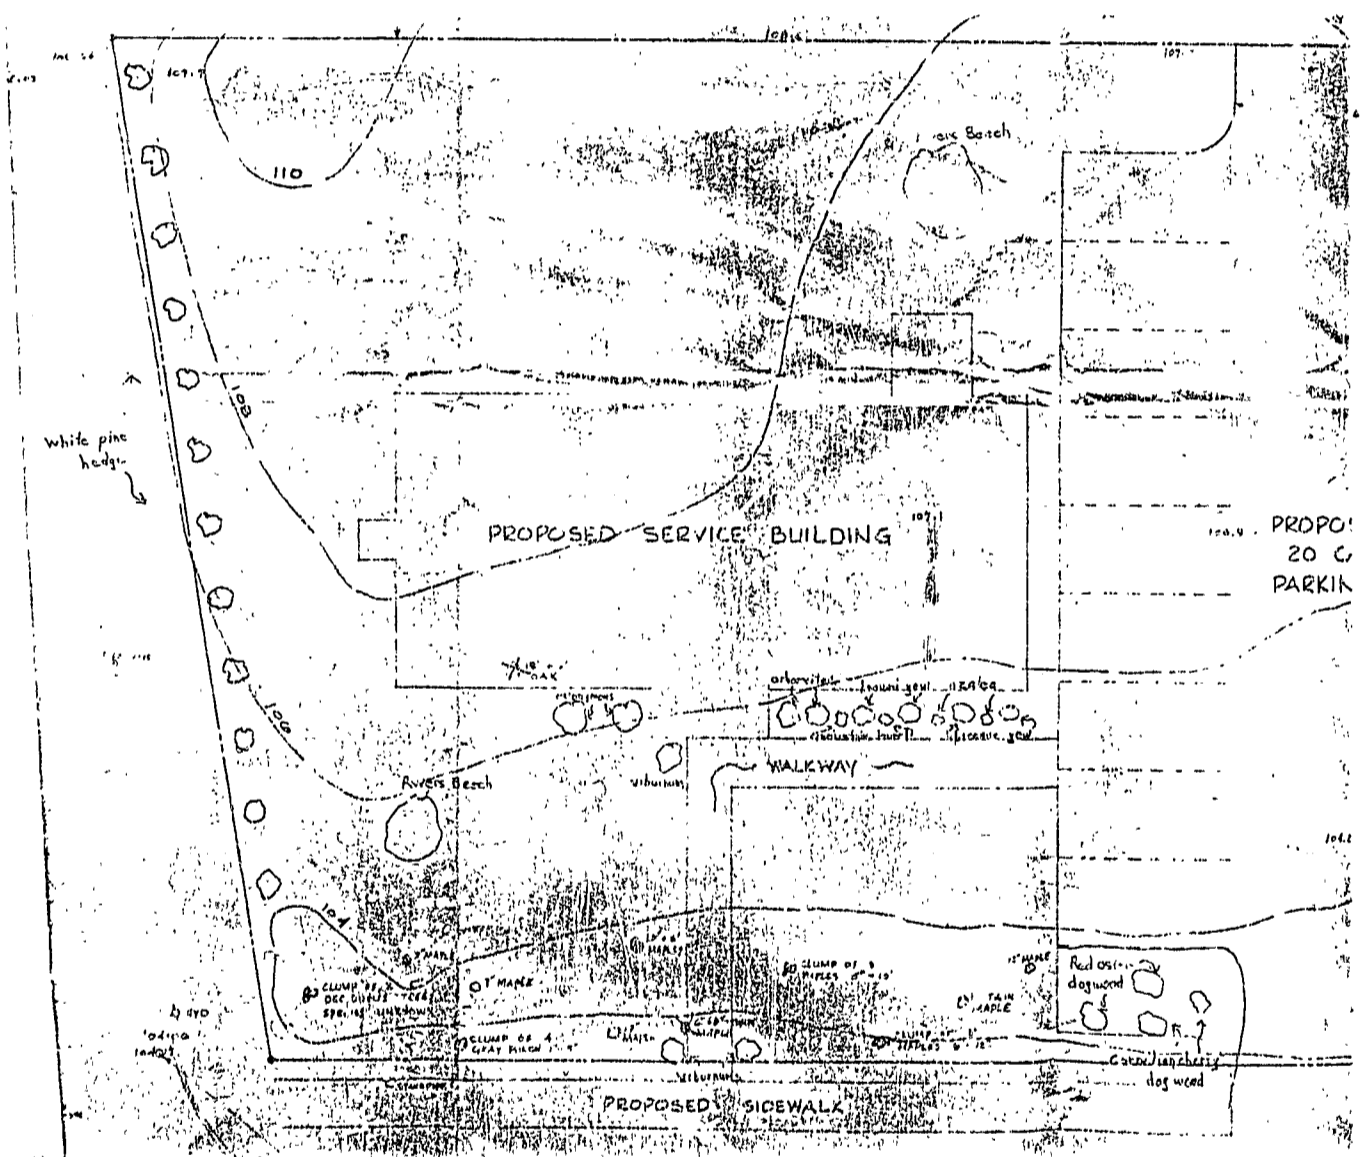

Between church property and 2 story wood frame house on Allen Avenue.

I recommend that a fifteen foot buffer of existing vegetation be preserved at this location.

Please let me know if I can be of further help.
