APPLICATION FOR PERMIT FOR HEATING, COOKING OR POWER EQUIPMENT

Portland, Maine, Sept. 7, 1972

PERMIT ISSUED

SEP 8 1972

01051 CITY OF PORTLAND

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.

The undersigned hereby applies for a permit to install the following heating, cooking or power equipment in accordance with the Laws of Maine, the Building Code of the City of Portland, and the following specifications:

Location 257 Allen Ave. Use of Building dwelling No. Stories 1 1/2 New Building Existing "
Name and address of owner of appliance Charles Cobb, same
Installer's name and address RENEW Giroux Oil Service, 343 Warren Ave. Telephone

General Description of Work

To install oil fired furnace replacing coal furnace (forced air water)

IF HEATER, OR POWER BOILER

Location of appliance basement Any burnable material in floor surface or beneath? no
If so, how protected? Kind of fuel? oil
Minimum distance to burnable material, from top of appliance or casing top of furnace existing
From top of smoke pipe From front of appliance From sides or back of appliance
Size of chimney flue Other connections to same flue
If gas fired, how vented? Rated maximum demand per hour
Will sufficient fresh air be supplied to the appliance to insure proper and safe combustion?

IF OIL BURNER

Name and type of burner Texaco Model FC-62100 Labelled by underwriters' laboratories? yes
Will operator be always in attendance? no Does oil supply line feed from top or bottom of tank? bottom
Type of floor beneath burner concrete Size of vent pipe 1 1/2"
Location of oil storage basement Number and capacity of tanks 1 - 275
Low water shut off Make No.
Will all tanks be more than five feet from any flame? How many tanks enclosed?
Total capacity of any existing storage tanks for furnace burners

IF COOKING APPLIANCE

Location of appliance Any burnable material in floor surface or beneath?
If so, how protected? Height of Legs, if any
Skirting at bottom of appliance? Distance to combustible material from top of appliance?
From front of appliance From sides and back From top of smokepipe
Size of chimney flue Other connections to same flue
Is hood to be provided? If so, how vented? Forced or gravity?
If gas fired, how vented? Rated maximum demand per hour

MISCELLANEOUS EQUIPMENT OR SPECIAL INFORMATION

Blank lines for miscellaneous information

Amount of fee enclosed? \$5.00 (250 for one heater, etc., \$1.00 additional for each additional heater, etc., in same building at same time)

APPROVED: [Signature]

Will there be in charge of the above work a person competent to see that the State and City requirements pertaining thereto are observed? yes

INSPECTION COPY

P. 43/840-I

August 27, 1943

Mr. Charles A. Cobb,  
15 Loring Avenue,  
Portland, Maine

Subject: Building permit including alterations  
to a one story frame shed attached to wall-  
ing at 257-263 Allen Avenue

Dear Sir:

We are unable to understand the framing and foundation information which you have given on the application for the above job and some of the information given is not correct, but I have decided to try to issue the permit with this letter to guide you as to compliance with the law. If you are in doubt as to what the requirements are about any of this work after having read the letter, it will be best for you not to start anything but the roof covering and give us clearer information as to what you propose, so that we may not all find ourselves in the difficult situation of having work completed contrary to the law.

If you really intend to make the new shed the same size as the present one, then the application should indicate a structure 25 feet by 14 feet instead of 14 feet by 16 feet, it being understood that the gable end of the proposed pitch roof being on the 14 foot side.

If cedar foundation posts are located at each corner and under the center of each side, the 4x8 sill which you have shown (must be all one piece in cross section) will be all right if you will place it with the six inch dimension upright and if the floor joists are run the 10 foot way. Thus the sill supporting the floor joists would be on a span of seven feet and the sill supporting the roof joists on a span of five feet.

I have just noted that you are to replace cedar posts with concrete piers, so please substitute concrete piers for cedar posts in the above directions.

Very truly yours,

Inspector of Buildings

FMd/H  
CC: Carrie Cobb  
257 Allen Avenue

August 23, 1943

Warren McDonald  
Inspector of Buildings

Dear Sir:

Having a full understanding of the application of  
FEDERAL WAR PRODUCTION BOARD CONSERVATION ORDER L-41 to the  
construction work which I propose at 257 Allen Avenue  
in the City of Portland, I DESIRE THAT YOU ISSUE THE  
BUILDING PERMIT to cover that work.

*Charles R. Galt*

Rebuilding of shed on dwelling of Mrs. Carr, Col. B.  
at 257 Allen Ave.

The shed being rebuilt is 10' long x 14' wide instead of 14' x 16', the gable end being on the 14' side. Framing as shown in application is not clear; but if posts are located at each corner and at the center of each side, the 4x6 sill on edge should be sufficient to carry the theoretical loads provided the floor joists are run the 10' way, the sill supporting them being on a 7' span and the sill supporting roof being on a 5' span.
