Rept. 2667C-I

August 30, 1958

Mr. William E. Thompson,
48 Chesley Avenue,
Portland, Maine

Dear Sir:

I am unable to issue the building permit for which you applied to cover the construction of a 10 x 16 addition for a poultry house at 48 Chesley Avenue, because the garage to which you intend to attach this addition is not in substantial condition.

In 1953 a permit was issued to Charles J. Willard who was then owner of the property to construct a garage attached to the dwelling house. He did a very poor job of it both as far as the framing of the garage was concerned and also the fire protection between the garage and the house.

Upon examination now we find that the wall to which the poultry house would be attached supports one end of 2x6 rafters of a flat roof, has only two studs that run the full height of the wall and these are near the door opening. The rest of the wall is framed with 2x6 running horizontally and boarded vertically for about five feet of height and then from this point to the single 2x4 plate there are 2x5 studs vertically about three feet on centers with boarding running horizontally. The end wall is part of an old building with one or two studs put in to bring it up to the new height. The asbestos lumber used for fire resistance as required by law was never put on in satisfactory manner and now there is a large hole broken in it so that there is an opening into space beneath the piazza.

If you care to rebuild this garage making it to comply with Building Code requirements which call for adequate sills, for double 2x4 or 4x4 corner posts resting on the sill, 2x4 studs not more than 24 inches from center to center run vertically with a double 2x4 plate, unless the roof joists rest precisely over the vertical studs beneath, and adequate roof joists, when the work is finished, we shall perhaps be able to issue the permit to cover the construction of the poultry house attached to it.

If you do not desire to proceed this way, and will return the receipt for the fee paid to this office at least by September 10, 1958, your money will be refunded by voucher.

Very truly yours,

WMC/D/R

Inspector of Buildings

STANISLAW ACCOMPANYING APPLICATION FOR BUILDING PERMIT

Addition to garage

48 Chesley Ave.

Date - Aug. 16, 1948

1. In whose name is the title of the property now recorded? Charles Williard
2. Are the boundaries of the property in the vicinity of the proposed work shown clearly on the ground, and how? Yes
3. Is the outline of the proposed work now staked out upon the ground? Yes. If not, will you notify the Inspection Office when the work is staked out and before any of the work is commenced? Yes
4. What is to be maximum projection or overhang of eaves or drip? 8 in
5. Do you assume full responsibility for the correctness of the location plan or statement of location filed with this application, and does it show the complete outline of the proposed work on the ground, including bay windows, porches and other projections? Yes
6. Do you assume full responsibility for the correctness of all statements in the application concerning the sizes, design and use of the proposed building? Yes
7. Do you understand that in case changes are proposed in the location of the work or in any of the details specified in the application that a revised plan and application must be submitted to this office before the changes are made? Yes

William E. Thompson
