Dear Bob:

At your request we have checked the elevation of the newly poured slab at your Portland repair facility.

The elevation of the top of the slab is 18.61' based on N.G.V.D..

If we can be of further assistance, please feel free to call.

Very truly yours,

Owen Haskell, Inc.

Dear Mr. Herman:

Staff has reviewed BIW's plan for the construction of a storage building at the BIW shipyard on Commercial Street for compliance with the City's Flood Plain Management Regulations (Division 26.A). The submitted plan is in conformance with the regulations and BIW may seek a building permit from the Building Inspections Division.

Please note that certification by a professional surveyor of the elevation of the "as-built" slab will be needed before a certificate of occupancy can be issued.

Please contact Maureen O'Meara if you have any questions on the approval of the BIW plan.

Sincerely,

Joseph E. Gray, Director
Planning and Urban Development

RE: 40 Commercial Street

Dear Sir:

Your application to construct a 30' x 30' maintenance facility has been reviewed and a permit is herewith issued subject to the following requirements:

1. Provide two separate, remote and approved exits arranged so that no common paths of travel are present.
- The lowest floor of nonresidential structure shall be elevated at least two (2) feet above the base flood elevation or if no base flood elevation is given, a minimum of two (2) feet above the highest adjacent ground or be floodproofed.

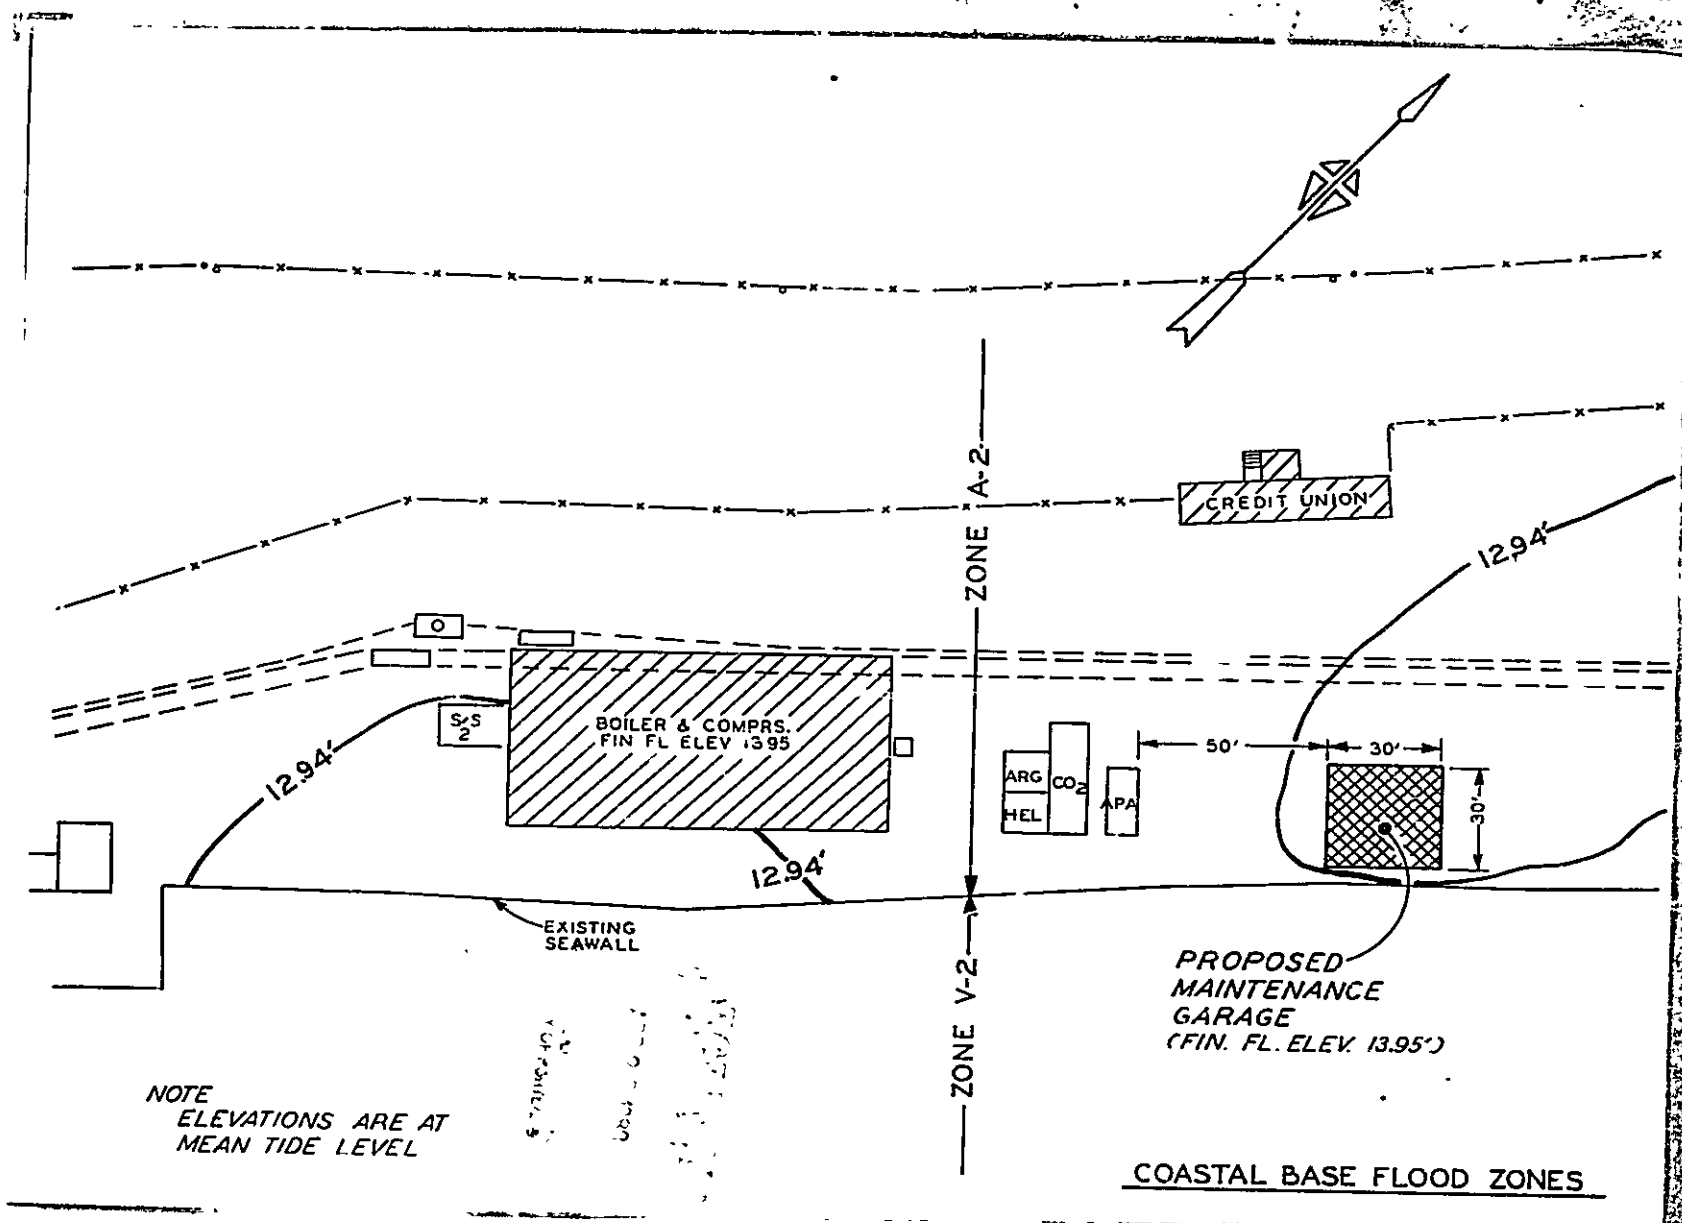

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Sincerely,

P. Samuel Hoffses
Chief of Inspection Services

CITY OF PORTLAND

JOSEPH E. GRAY, JR.
DIRECTOR OF PLANNING
AND URBAN DEVELOPMENT

October 5, 1987

Mr. Vernon Campbell Grant, P.E.
Bath Iron Works
700 Washington Street
Bath, Maine 04530

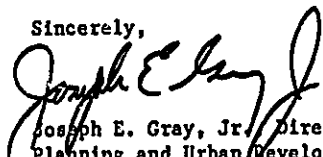

Dear Mr. Grant:

Staff has reviewed BIW's plan for the construction of a storage building at the BIW shipyard on Commercial Street for compliance with the City's Flood Plain Management Regulations (Division 26.A). The submitted plan is in conformance with the regulations and BIW may seek a building permit from the Building Inspections Division. In regard to the issuance of a two-part building permit, Mr. John Swan of Owen Haskell, Inc. sent me a copy of a letter certifying that the elevation of the slab for the storage facility is 16.90 feet. This slab elevation is well above the minimum requirement of two (2) feet above the ten (10) foot base flood elevation and is in compliance with the ordinance. BIW is eligible to receive both parts of the building permit.

Please note that in addition to the above certification, certification by a professional engineer registered in the state that the "as built" development conforms to the construction methods and practices for development of a structure as detailed in section 14-450.9(1)b. is required to obtain a certificate of occupancy.

Contact Kathleen Conner if you have any questions on the approval of the BIW plan.

Sincerely,

Joseph E. Gray, Jr. Director
Planning and Urban Development

Second - Full completed application form fee

City of Portland
Dept. of Public Works
424 City Hall
Portland, Maine 04133

ATTN: MR. WILLIAM GOODWIN

Third - The Public Works Department will call the person indicated on front side to schedule pre-installation inspection. During this inspection the Public Works Department will make copies of the application form. If the application is approved 3 copies will be made, one will be mailed to the Portland Water District, one will be forwarded to the City Plumbing Inspector and one will be mailed back to the Applicant. If the application is denied, one copy will be made and mailed to the applicant showing reason for denial.

Fourth - Upon receipt of a copy of the approved application, the applicant can purchase and install the sub-meter at approved. Following installation the applicant or his plumber must call the Chief Plumbing Inspector at 773-5451 Ext. 210 for an inspection of the completed installation. Following inspection by the Chief Plumbing Inspector, the Water District will be requested to seal the sub-meter and arrange to have an automatic reading system (if applicable - See General Information) installed where by the value shown by the submeter will be credited on the Sewer User Charge of the Bill.

The City and the District have arranged to relieve the customer from the reporting meter readings during their regularly scheduled visits to read the pre-existing service meter. This can be accomplished by locating the sub-meter directly adjacent to the pre-existing service meter or by locating the sub-meter located elsewhere with a remote reading register located so both readings can be made at the same time.

Approved meters are: Rotameter and Rotwell meters, conforming to the following specifications:

1. shall meet or exceed ANSI accuracy test requirements and be accompanied by a certificate of test accuracy.
2. the meters will have straight reading, cubic foot registers.
3. the meters will have the meter number stamped into the main case.
4. the meters shall be magnetic drive.
5. shall have either a rotating disc or oscillating piston.
6. shall have a bronze case.

Approved meters are available from the Water District, which sells them for the price the District pays them from the manufacturers. If you wish to purchase a sub-meter from the District you must bring your copy of an approved application with you at time of purchase.

TO BE COMPLETED BY PUBLIC WORKS

Pre-installation inspection by NVT, WBG, E. Goodwin on 7/20/79

Automatic reading system requested YES NO

INSTRUCTIONS

First - The applicant is to complete front of this form. The Tax Map Reference can be found on your Real Estate Tax Bill directly following owners name and address in the creator of your Property Tax Bill. Billing name and address should be copied from your Water & Sewer Bill as well as the Portland Water District Account Number which is in the lower left corner of the meter and Sewer Bill.

Second - Mail completed application form to:

City of Portland
Dept. of Public Works
434 City Hall
Portland, Maine 04112.

ATTN: MR. WILLIAM GOODWIN

Third - The Public Works Department will call the person indicated on front side to schedule pre-installation inspection. During this inspection the Public Works section of this form (below) will be completed. Following this inspection Public Works will make copies of the application form. If the application is approved 3 copies will be made, one will be mailed to the Portland Water District, one will be forwarded to the City Planning Inspector and one will be mailed back to the applicant. If the application is denied, one copy will be made and mailed to the applicant showing reason for denial.

Fourth - Upon receipt of a copy of the approved application, the applicant can purchase and install the sub-meter as approved. Following installation the applicant or his plumber must call the Chief Plumbing Inspector at 725-5433 Ext. 600 for an inspection of the completed installation. Following inspection by the Chief Plumbing Inspector, the Water District will be requested to seal the sub-meter and arrange to have an automatic reading system (if applicable) see Sewer Information Sheet 3. Installed above by the plumber shown by the submeter will be credited on the Sewer User Charge of the Bill.

GENERAL INFORMATION

Sec 20 222.60 of the Municipal Code of the City of Portland, Maine reads as follows:

Submetering of Water Meters. Any person who feels that recorded water records are not a reliable index of his discharge volume may install an additional water meter of a type approved by the Director to measure the volume of water which can be shown not to enter the sewerage system. The person installing such a meter shall immediately notify the Director of such installation and shall be responsible to the Director for reporting meter readings not less often than every three months. Such person shall be credited with the volume charges for the volume shown by such meter, which meter shall be accessible for reading by the City or its agents at all reasonable times.

The City and the District have arranged to relieve the customer from the reporting responsibility required above if both meters can be read simultaneously by the District's Meter Readers during their regularly scheduled visits to read the pre-existing service meter. This can be accomplished by locating the sub-meter directly adjacent to the pre-existing service meter or by equipping the sub-meter located elsewhere with a remote reading register located to both readings can be made at the same time.

Approved meters are: Neptune and Rockwell meters, conforming to the following specifications:

1. shall meet or exceed ANSI accuracy test requirements and be accompanied by a certificate of test accuracy.
2. the meters will have straight reading, cubic foot registers.
3. the meters will have the meter under stamped into the metal case.
4. the meters shall be magnetic drive.
5. shall have either a rotating disc or oscillating piston.
6. shall have a bronze case.

Approved meters are available from the Water District, which sells them for the price the District buys them from the manufacturers. If you wish to purchase a sub-meter from the District you must bring your copy of an approved application with you at time of purchase.

TO BE COMPLETED BY PUBLIC WORKS

Pre-installation inspection by O.K. ed William B. Goodwin
