June 15, 1937

Mr. William A. Floyd,  
Long Island,  
Maine

Dear Sir:

If your location plan accompanying your application for a building permit to move a small building from Ponce's Landing, Long Island to your property on Floyd Street is correct, I am unable to give the permit because the building will be located and occupy too much of the depth of the side yard required on your own land in connection with your dwelling house on the same property.

If you will change your plans and change the location plan in this office so that the building after its relocation will be further back from the street line, we shall be able to issue the permit.

To accomplish this please indicate on your plan the depth in feet and inches of your dwelling house measured at right angles to Floyd Street and then the small building may be located so that the front of it, that is the wall toward Floyd Street, will not project beyond the rear wall of the dwelling house toward Floyd Street more than one-fifth of this depth of the dwelling house. For instance, if the depth of the dwelling house were 25 feet, the front of the small building would not be permitted more than five feet closer to the line of Floyd Street than the rear wall of the dwelling house now is.

If you will change the location plan in the office, we shall be able to issue the permit promptly.

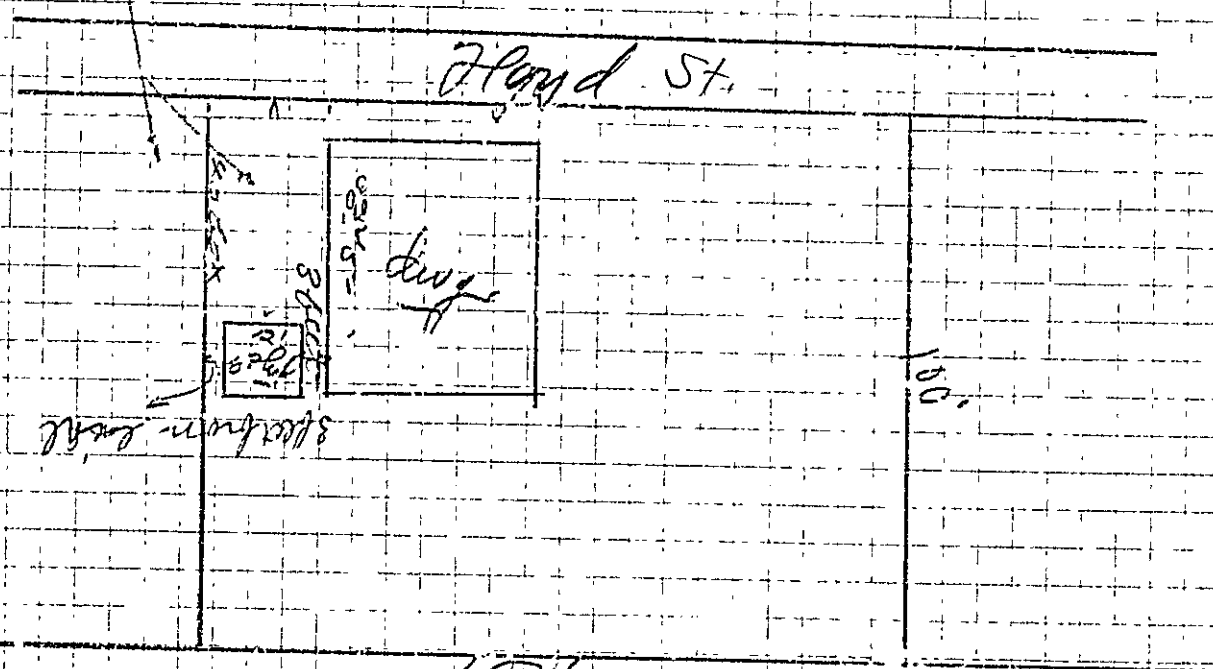

Very truly yours,

McD/H

Inspector of Buildings

BUILDING PERMIT REPORT

ADDRESS: 934-23 Floyd St. 1, I. DATE: 5/July/90

REASON FOR PERMIT: Repair After Fire and Construct  
A 3 x 10 addition

BUILDING OWNER: Thomas Duncanson

CONTRACTOR: John Billings

PERMIT APPLICANT: \_\_\_\_\_

APPROVED: \* / \_\_\_\_\_ D. WEBB

CONDITION OF APPROVAL OR DENIAL:

- \*.) Before concrete for foundation is placed, approvals from ~~Public works~~ and Inspection Services must be obtained.
- 2.) Precaution must be taken to protect concrete from freezing.
- 3.) All vertical openings shall be enclosed with construction having a fire rating of at least one(1) hour, including fire doors with self-closers.
- 4.) Each apartment shall have access to two(2) separate, remote and approved means of egress. A single exit is acceptable when it exits directly from the apartment to the building exterior with no communications to other apartment units.
- 5.) The boiler shall be protected by enclosing with one(1) hour fire rated construction including fire doors and ceiling, or by placing over the boiler, two(2) residential sprinkler heads supplied from the domestic water.
- 6.) Every sleeping room below the fourth story in buildings of Use Groups R and I-1 shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside opening without the use of separate tools. Where windows are provided as a means of egress or rescue, they shall have a sill height not more than 44 inches (1118 mm) above the floor. All egress or rescue windows from sleeping rooms must have minimum net clear openings of 5.7 square feet (0.53m<sup>2</sup>). The minimum net clear opening height dimension shall be 24 inches (610 mm). The minimum net clear opening width dimension shall be 20 inches (508 mm).
- 7.) In addition to any automatic fire alarm system required by Sections 1018.3.3, a minimum of one single station smoke detector shall be installed in each guest room, suite or sleeping area in buildings of Use Groups R-1 and I-1 and in dwelling units in the immediate vicinity of the bedrooms in buildings of Use Group R-2 or R-3. When actuated, the detector shall provide an alarm suitable to warn the occupants within the individual unit (see Section 1717.3.1).

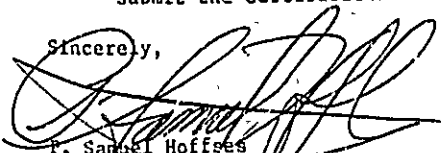

In buildings of Use Groups R-1 and R-2 which have basements, an additional smoke detector shall be installed in the basement. In buildings of Use Group R-3, smoke detectors shall be required on every story of the dwelling unit, including basements.

In dwelling units with split levels, a smoke detector installed on the upper level shall suffice for the adjacent lower level provided the lower level is less than one full story below the upper level. If there is an intervening door between the adjacent levels, a smoke detector shall be installed on both levels.

All detectors shall be installed in an approved location. Where more than one detector is required to be installed within an individual dwelling unit, the detectors shall be wired in such a manner that the actuation of one alarm will actuate all the alarms in the individual unit.

- 8.) Private garages located beneath rooms in buildings of Use Groups R-1, R-2, R-3 or I-1 shall have walls, partitions, floors and ceilings separating the garage space from the adjacent interior spaces . . . constructed of not less than 1-hour fireresistance rating. Attached private garages shall be completely separated from the adjacent interior spaces and the attic area by means of 1/2-inch gypsum board or equivalent applied to the garage side. The sills of all door openings between the garage and adjacent interior spaces shall be raised not less than 4 inches (102 mm) above the garage floor. The door opening protectives shall be 1 3/4-inch solid core wood doors or approved equivalent.
- 9.) A guardrail system located near the open side of a deck or elevated walking surfaces shall be constructed. Guards in buildings of Use Group R-3 shall be not less than 36 inches in height. Open guards shall have intermediate rails, balusters or other construction such that a sphere with a diameter of 6 inches cannot pass through any opening.
- 10.) Section 25-135 of the Municipal Code for the City of Portland states: "No person or utility shall be granted a permit to excavate or open any street or sidewalk from the time of November 15 of each year to April 15 of the following year.
- 11.) The builder of a facility to which Section 4594-C of the Maine State Human Rights Act, Title 5 M.R.S.A. refers, shall obtain a certification from a design professional that the plans of the facility meet the standards of construction required by this section. Prior to commencing construction of the facility, the builder shall submit the certification to the Division of Inspection Services.

Sincerely,

  
F. Samuel Hoffses  
Chief of Inspection Services
