

FERN AVENUE
93-J-15

LONG ISLAND

STANDARD
SILVER

P. 33/2116-I

16-15-42-B

October 8, 1940

Katherine Fralick,
Long Island,
Portland, Maine

Dear Madam:

In 1938 we issued to a Mr. Woodbury of the Ligonja Lumber Company a building permit to cover partitioning off a room in the second story of one of your buildings on Fern Avenue, Long Island. At that time Mr. Woodbury gave the present and the proposed use of the building as "storage". He was not able to say just what kind of storage but that it would probably consist of the storage of excess furniture or the like as incidental to the habitation on the same lot.

I wrote you a letter at that time about the limitations of use of the building.

An inspector from this office now reports that the first story of the building is being used as a garage and the second floor for sleeping quarters, apparently for the chauffeur of the tenant.

This is in violation of the Building Code. It is necessary that you either discontinue the use of the first story as a garage, or if you wish that use to be continued, that you apply for a building permit at this office to cover use of the first story as a garage, and in the application for that permit, agree to provide the fire protection required by the Building Code by way of a ceiling over the garage part consisting of either plaster or metal lath or upon perforated gypsum lath, or of so-called "asbestos lumber" at least three-eighths of an inch in thickness, well cemented at the joints; also, if there are stairs leading from the garage part to the second floor inside the building to enclose these stairs with similar fire resistive material on wooden studs at least 2x3 and not more than 16 inches from center to center and provide a self-closing fire door in the enclosure at the foot of the stairs, the fire protective material being required on the garage side of the stairway enclosure only.

I shall expect to hear from you either that you have given up the use as a garage, or by way of an application for a building permit to make the existing uses legal and provide the fire protection at least by October 14, 1940.

Very truly yours,

Inspector of Buildings

WCU/H

Rept. 3521C-I

December 9, 1933

Katherine Fralick,
Long Island
Portland, Maine

Dear Madam:

We are issuing to Mr. Woodbury of Ligonía Lumber Company a building permit to cover partitioning off a room in the second story of one of your buildings on Fern Avenue, Long Island.

Mr. Woodbury gives the present use and the proposed use likewise of the building as "storage". He is not aware of what kind of storage this may be.

This letter is for the purpose of advising you that the use of this building is required to conform with one of the permissible uses allowed by the Zoning Law in the Apartment House Zone where the property is located. Mr. Woodbury thinks that the building probably will be used for the storage of excess furniture or the like as incidental to the habitation on the same lot. There would be no objection to such a use.

Very truly yours,

MMCD/R
CC: Mr. R. L. Woodbury
Ligonía Lumber Co.

Inspector of Buildings

APPLICATION FOR PERMIT 2126 PERMIT ISSUED

Class of Building or Type of Structure Third Class

Portland, Maine, December 9, 1938

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.
