PERMIT  
# 74/238  
MAR '74

THIS AGREEMENT made and entered into this 28th day of March  
A. D. 1974 by and between the CITY OF PORTLAND, a body politic and corporate,  
located in the County of Cumberland and State of Maine, hereinafter called the "City"  
and Stanley P. Guian, Jr.

hereinafter called "Contractor".

W I T N E S S E T H

Contractor agrees that (he) (it) will demolish and remove from the premises the  
buildings located at Fern Avenue, Long Island (100-C-1)

in said Portland on the following terms and conditions:

1. Material salvaged from the building will become the property of the Contractor and will be removed from the premises at once. Demolition shall be performed so as to prevent dust, dirt, and undue noise from the operation becoming objectionable to the adjoining neighborhood. On completion of the demolition, the lot shall be cleared of all debris.
2. The superstructure shall be completely removed. Plaster shall be removed before taking out the windows. Cellar shall be entirely cleared of all combustible and perishable material.
3. Underpinning and foundation walls shall be removed down to a level 2'0" below existing land elevation. This material may be used to fill the cellar. Remainder of the excavation shall be filled to surrounding grade with clean coarse gravel, well tamped and compacted in layers not over 12" deep.
4. Electric service, if any, shall be removed to the pole in the street under advice of the Central Maine Power Company.
5. Water service, if any, shall be terminated just inside the present cellar wall under advice of the Portland Water District.
6. Gas service, if any, shall be terminated just inside the present cellar wall under advice of the Portland Gas Light Co.
7. Sewers, if any, shall be capped at the point of entrance to cellar, as directed by the Sewer Division of the Public Works Department of the City.
8. Where evidence of rodent and/or vermin infestation exists in or about the premises, proper extermination procedures shall be carried out by a pest control operator (Exterminator) registered with the Health Department. This requirement must be met before the Building Inspector will issue a demolition permit to the Contractor.
9. Once the work of demolition is started, it shall be continued to completion uninterrupted except for Sundays and holidays or acts beyond the Contractor's control. Demolition shall be commenced three days after the execution of this contract and all work, including the cleaning up of debris and material, shall be completed no later than four days after the commencement of demolition.
10. Contractor will secure all necessary permits for this work at (his) (its) own expense.

11. The City does hereby allow and authorize Contractor to enter upon the premises on which said buildings are located to make appropriate use thereof during the contract period for the purpose of demolition of said buildings, it being specifically understood and agreed that the Contractor has no rights pertaining to said property other than the use of same for the removal of said buildings and the salvage rights above mentioned.

12. Contractor will forever hold and keep the City safe and harmless from any and all cost, loss, or damage for property damage, personal injury, or death resulting from the performance of this contract.

13. Contractor agrees to provide and maintain during the period of demolition public liability insurance in the minimum amount of \$1,000,000/\$300,000 for personal injury or death and \$15,000 for property damage. Contractor further agrees to provide Workmen's Compensation coverage if required by the laws of the State of Maine.

14. Contractor shall also furnish performance bond in the amount of \$1,000 guaranteeing full and faithful performance of all of the terms of this contract.

15. The City agrees that, upon the performance of all of the terms and conditions of this contract, it will pay the Contractor the sum of \$1,000.

16. Contractor will perform the work to the satisfaction of the Director of Building Inspection or his Deputy, who shall have the right of inspection at all times and whose approval and acceptance of the work shall be a condition precedent to payments by the City under this contract.

IN WITNESS WHEREOF, The said CITY OF PORTLAND has caused this contract to be signed and sealed in its corporate name by Ferrant S. Davis, Purchasing Agent

\_\_\_\_\_, thereunto duly authorized, and \_\_\_\_\_

Stanley P. Quinn, Jr., has signed this contract

\_\_\_\_\_ the day and year first above written.

30/17/ - E. R. Parry, Harbor De Grace, Long Isl.

Mr. Wood was in today and wished to find out about this second floor which is framed as shown on plan. He has relocated the stairs and they are now thinking of providing possibly three rooms and hall in this space, and he feels that this framing would not hold partitions. His idea would be to take out the two intermediate long 3x6's and replace the center 3x6 with a steel beam as they do not want any posts in the first floor. When the stairs were put in, by mistake they cut off the center 3x6, then butted it right back without other support. I could not make him see that it was best to get someone else to see that it was best to get someone else to

March 23, 1940

Mr. Thomas Wood,  
Long Island,  
Portland, Maine

Dear Mr. Wood:

If I understand your inquiry about a change in the second floor of the building of Mr. Parry at Harbor deGrace, Long Island, we shall need considerable more information than you have shown on the sketch and if steel is to be used we will need an engineer's design with his statements of design attached to the plan.

Apparently there was some slip in cutting in the new stairway, the center 3x6 under the second floor was cut off in some manner and has not been properly supported, so that something will have to be done whether or not you plan to go ahead as indicated in the office on March 21st.

Apparently there are 3x4's running across under the second floor on the front, 24 inches on centers and these are not sufficient if they are to be on an eleven foot span. Whenever the 3x6's occur crosswise of the building they ought to be adequate provided they are supported in the center and on each end.

I understand that you plan to put a new steel beam in place of the center 3x6 without posts under it but to receive support only at the two ends on the walls of the building. This would make the steel on a 26 foot span which would mean quite a heavy piece of steel and, of course, substantial posts under each end resting upon an adequate foundation.

I think what you plan is feasible all right, but the only way I see to start it is to have a competent engineer design the steel and the supports of it, attach his statement of design to the plan and file the plan along with the application for the permit to do the work.

Mr. Parry is receiving a copy of this letter.

Very truly yours,

Inspector of Buildings

Warren MacDonald, Long Island, April 19<sup>th</sup> 48  
Dear Sir:-  
I am a cripple or I would call on you about this  
matter. I am not able to get to a phone and I do not  
seem willing to take this matter up.

Mr. Alfred Powell, living on Fern Ave. at Harbor House  
is making an apt apartment house of the house  
formerly owned by Mrs. Perry or the old Peck estate.  
They have a family living on the third floor.  
He took out bricks for a stove, an oil burner,  
His mother fell down stairs twice in 2 weeks before  
she died. They had quite a time getting her body  
down stairs. The chimney is over 65 yrs. old and  
in bad condition on the outside. There is no tile  
lining. Some of the stairs are not fit for use.  
It is a fire menace to the neighborhood.  
There are several houses in close proximity  
He wired the place himself and he is in a business  
election.

Will you let me know or if there is some thing  
I can do will you attend to it?  
It is worrying me and making me very rich.  
There never was a place for a stove on the third floor.  
I don't know what else he has done as I am not able  
to go over there. I know he is planning on several  
apartments.  
Yours Respectively, Mrs. Harriet E. Johnson

NOTES

5/5/68 Alfred Lowell is having  
this property. He lives on  
the first floor, uses  
second for storage room.  
has agreement to also use  
second floor for storage  
of his furniture until  
property paid for. This  
is a three room apartment  
on the third floor.

Although at present  
this is a dwelling home,  
sect 202c would require  
two ways out, whereas  
now there is but one  
stairway 30" wide, fairly  
steep and not handrails.  
I did not take time to  
check, but would <sup>also</sup> question  
the light and ventilation  
requirements of this  
third floor apartment.  
Mr Lowell seemed to

be aware of this condition  
as well as being a bit  
irritated. No arguments  
raised from having the  
tenant vacate, to what  
would be required to  
make it use legal  
and satisfactory.  
Chimney to be closed - no  
could not find anything  
definitely wrong. All

Mr. Reuben Woodbury  
Long Island, Maine

Dear Sir:

In regard to the erecting of a frame poultry house on your property at Long Island for which Mrs. A. Griffin made application for permit at this office on May 10th, we have not as yet received any notice from you regarding the location plans and would like to have you either call us on the telephone and give us the measurements which are required before the permit can be issued or else mail us a small location plan stating the measurements.

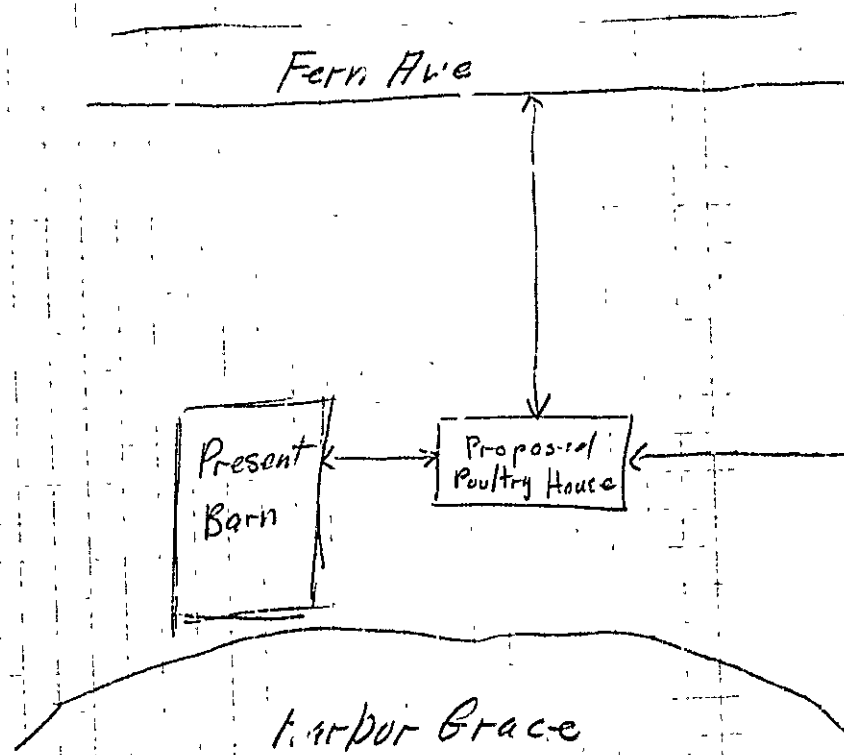

We would be pleased to have you do this at some time in the near future, and will issue the permit to you after receiving these measurements.

Very truly yours,

(Signed) KAREN McDONALD

Inspector of Buildings.
