CITY OF PORTLAND, MAINE

Revocable Public Property or Way Occupancy Permit

Number: 100

Date Issued: 5/28/86

Fee Paid: \$100.00

Date Expires: 6/25/86

100 - Morgan Way

Permission is hereby given to Yankee Construction Corp.
pursuant to the Municipal Code of the City of Portland, Maine to occupy
AS PORTION OF CITY OWNED PROPERTY AS SHOWN ON THE ATTACHED MAP

for the following purposes (and description of equipment if any): TO STORE
MATERIALS AS OUTLINED IN ATTACHED LETTER

N.B. Occupation of sidewalks shall not interfere with pedestrian traffic or ingress
or egress from structures. Additional conditions: SEE ATTACHED LETTER

It is understood and agreed that the City Manager in his
judgment may revoke this permit with or without cause at any
time with no refund of fee or liability whatsoever.

Permittee agrees to obtain and maintain public liability insurance (minimum
\$300,000 combined single limit) protecting the City from claims of bodily injury,
death and property damage and to furnish as evidence of such insurance a certifi-
cate stating that such insurance will not be cancelled within 30 days prior notice
to the City. Permittee further agrees to indemnify and hold the City of Portland,
its officers and employees harmless for all claims, demands, losses and expenses
(including reasonable attorney's fees incurred in the defense thereof) arising out
of the acts or omissions of Permittee during such occupancy.

Re: Marginal Way

Dear Sir:

Your application to erect a tent 8/22/91 to 8/31/91 has been reviewed and a permit is herewith issued subject to the following requirements:

1. Exits shall be marked with exit signs. Ref Section 5-10 of N.F.P.A. 101 Life Safety Code.
2. Ushers shall have flash lights and an employee will stand by the back-up generator in case of power failure.
3. The exit capacity of the two 8' doors limits the occupant load to a maximum of 436 occupants.
4. Tents shall be constructed as required by the building code BOCA/National 1990 and NFPA 102.

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Sincerely,

P. Samuel Hoffses,
Chief of Inspection Services

cc: Lt. Wallace Garroway, Portland Fire Department

REMARKS:

Done while I was on vacation.

May 27, 1986

City of Portland
Office of the City Manager
City Hall
Congress Street
Portland, Maine 04101

Attention: Mr. Paul Rollins

Gentlemen:

Yankee Construction Corporation wishes to rent from the City of Portland, a piece of property between Marginal Way and I-295 in the City of Portland, Maine. We wish to utilize this space for the duration of the construction period to build the Tukey's Bridge Interchanges on I-295.

Our intention is to enclose this area with chain link fencing, providing a secure storage area for materials, tools and equipment used in the construction of this project. These materials and equipment will include concrete forms, guard rail, signs, reinforcing steel, concrete accessories, crane, and possibly trucks. Also included will be storage trailers for tools.

We agree to maintain the property, and at the end of our use, to remove the chain link fence and restore the property to its present condition.

Very truly,

YANKEE CONSTRUCTION CORPORATION

RE: Minor Site Plan Review application for proposed changes at the
Forest Avenue substation, Portland, Maine.

Dear Sir or Madam:

Per a recent conversation with William Giroux of your Zoning Office, I am enclosing a Minor Site Plan Review application for some changes that Central Maine Power Company proposes to undertake at the Forest Avenue substation. The application includes seven (7) copies of a site plan showing the proposed changes, a brief description of the project, a location map, and photos of the existing facility. Also enclosed is a check in the amount of \$300.00 for the application fee.

It is our understanding from talking with Mr. Giroux that no boundary survey is needed at least at this point in the process.

I hope that the enclosed information is satisfactory for your review. Please contact me if you have any questions.

Yours truly,

Central Maine Power Company

David R. Dominie
David R. Dominie
Supervisor of Permitting

Enclosures

Proposed Modifications to Forest Avenue Substation

Central Maine Power Company

Location: The project is located at the existing Forest Avenue substation near the corner of Marginal Way and Forest Avenue (see attached location map).

Scope of Project: CMP is proposing to expand the existing substation in the following ways (refer to site plan):

- 1). Add two new 34.5 kV circuit breakers to the substation on the end of an existing bank of eight similar circuit breakers. The circuit breakers are housed in metal clad switch gear (the gray metal boxes shown in attached Photo #1). The new circuit breakers are needed to provide more capacity and improve reliability of electrical service in the area.
- 2). Add three underground duct banks within the substation to connect the new switch gear to existing substation equipment.
- 3). Extend the existing fenceline 6 feet out on the north and east sides. This will provide space within the substation to park a mobile substation when needed. Note: a mobile substation is a trailer-mounted unit that is temporarily moved into a substation to relieve the facility during emergency repairs or scheduled maintenance, thereby eliminating or reducing the duration of local power outages.

An existing row of pine trees along the east side will have to be removed to accommodate the extended fence. CMP will plant similar evergreen trees in their place to maintain the visual buffer.

- 4). Change all the fencing around the perimeter of the substation from 6' high to 8' high to improve the security of the facility.
- 5). Add a new 18' wide gate in the fence and a new driveway to access this gate from Marginal Way. The new driveway will be paved and will run parallel to the existing driveway (see Photo #2). Some of the existing trees in front of substation along Marginal Way will have to be removed to construct the new driveway. CMP will maintain evergreen trees between the two driveways to provide a visual buffer from the street.

ROAD CLASSIFICATION

Photo #1. View of the existing 34 kV circuit breakers (metal boxes in the left center of photo) from inside the substation.

Photo #2. View of existing substation from Marginal Way, showing the character of the existing driveway and the visual buffer of evergreen trees.

Sam Hoffses
Chief Inspector, City of Portland
Room 315
389 Congress St.
Portland, ME 04101

Dear Sam:

To facilitate the construction and operation of the cable television upgrade currently underway for the City of Portland, Time Warner Cable is requesting from the City a building permit to install a cement pad and underground conduit on property owned by Central Maine Power. The cement pad will be 6ft. x 8ft. x 8in. and support a 5ft (H) x 5ft. (W) x 2ft. (D) electrical cabinet. The three conduit systems will be cased in concrete and located as per the attached schematic. All of this minor construction will be completed by R.J. Grondin and Sons, and is acceptable to Central Maine Power who is receiving fair market compensation for the use of this property. Thank You in advance for expediting this permit. If you have any further questions please call me at 775-2331 ext.260.

Sincerely,

Dick Herlthy
